

News Release

Monday 6 July 2020

POSitive POS SA has been certified by [Netcash](#) to accept their QR Payment type. This implies that you as a retailer utilizing POSitive Point of Sale now have the benefit of not only a cost-effective Merchant Account, but also providing your customer with a contactless, secure payment option which in these days of COVID-19 is essential for your customer. The end customer has the choice to use their own banking application on their mobile phone or any of the existing mobile wallet applications which they trust to do the secure contactless payment.

Currently the following mobile wallet applications are available and more is added without you having to upgrade your point of sale:

To learn more, send an email to pos@positive-sa.co.za and request more information.

Regards

Heidi Martins
Managing Director
